About **BEP - 20**

BEP-20 is a token standard on Binance Smart Chain (BSC) that extends ERC-20, the most common Ethereum token standard. Designed for compatibility with the Ethereum ecosystem, BEP-20 enables token creation, transfer, and management with minimal fees and rapid transactions.

This standard empowers developers to create a wide range of digital assets, from stablecoins to utility tokens, within the Binance ecosystem.

Key Features of BEP-20

- 01  Compatibility
- 02  Fast & Low-Cost Transactions
- 03  Interoperability
- 04  Enhanced Security

About **ATG GX Coin**

ATG GX Coin is an exclusive, high-value digital currency backed by 99.99% pure gold, designed to provide unmatched security and value within the ATG World ecosystem. As a premium currency, it offers both stability and a tangible asset foundation, setting a new standard for value retention in digital assets.

Usability of **ATG GX Coin**

June
2025

ATG Gold CX

Securely invest in gold assets with the backing of ATG GX Coin, merging physical and digital asset value.

Jan
2026

ATG Chain

Transact within ATG's proprietary blockchain, leveraging the security and exclusivity of ATG GX Coin.

June
2026

ATG TrustX

Enjoy exclusive access to high-value trusts and secure investments, designed to enhance financial security.

Exchange Rate

ATG GX Coin is positioned as an exclusive, high-value currency within the ATG ecosystem, with a **fixed exchange rate of 1 ATG GX Coin to 1,000 ATGW Tokens**. This valuation reflects the premium status of ATG GX Coin as a gold-backed asset, making it significantly more valuable than ATGW Token.

This dual-currency relationship allows users to seamlessly elevate their holdings from ATGW Token to the premium, gold-backed ATG GX Coin, which can serve as a secure store of wealth within the ATG ecosystem.
